# WEST KILDONAN CURLING CLUB

## GENERAL CLUB RULES

### Season 1967-1968

1. Curling draws Monday to Thursday nights with 1st draw commencing 7:15 p.m. with bell to ring at 9:00 p.m. completing the end in play and one more end. 2nd draw to commence at 9:15 p.m. or sooner. For the purpose of this rule an end shall be considered completed and the next end in play when the last rock of an end has crossed the nearest sweeping line. In the event of a tie, the game to proceed until a point is scored to decide the winner.
2. Man on duty to be drawn to curl on the 9:15 draw but is responsible in starting the 7:15 p.m. draw as well as the 9:15. He is to definitely enforce rule 7 in the West Kildonan Curling Club General Rules regarding games starting on time or penalty points will be awarded.
3. Five man rinks to be accepted this coming year consisting of four full memberships and one associate. This rink may hold only four votes at Curling Club meetings and in the case of rink winning a prize only four prizes be received.
4. Number 3 will eliminate all exemptions in the club this year with the exception of a rink involved in inter-club or British Consols Playdowns when the Ice Committee will re-arrange games for the rinks concerned.
5. (a) On the 7:15 p.m. draw all spares will be posted on the board and drawn for in the following order: Associates, Juniors and Regulars and others. The spare is to play lead.  
(b) All rinks must start with four players; if they are short and spares (associates or regulars) are available, even though the missing player may only be late in coming.  
(c) If a team knows in advance it will be short it may arrange for a spare(s) to come out. This will ensure the rink of a spare but not necessarily the one they asked out.

## Two Favorites

**Paulin. Chambers Co. Ltd.**  
PHONE 942-0413

WINNIPEG

6. (a) On the 9:15 p.m. draw a rink may arrange for one spare to play lead, from all associates, juniors or remaining club members and he may play for the team calling. Skips are asked, however, to give associates first call in this situation and if none available then regular curlers. This rule pertains to the 9:15 draw only. Others wishing to curl on the 9:15 draw may post their names on the board in the usual manner.

(b) Each rink may arrange for one associate on the 7:15 draw to play for the team calling, providing each of the other rinks have the required number of curlers to start a game.

7. This year the club has only 36 rinks so we will operate three groups of eight rinks which will make up Divisions A, B, C, and two groups of six rinks which will make up Divisions D and E. Divisions D and E will play each rink within their respective groups and two interlocking games.

8. Positions of rinks to be seeded by the Ice Committee to commence the 1st round. All games to count in standings. Points will be awarded on the following basis, commencing with 1st round.

Division "A" — Win 20 — Loss 10 Points
Division "B" — Win 18 — Loss 9 Points
Division "C" — Win 16 — Loss 8 Points
Division "D" — Win 14 — Loss 7 Points
Division "E" — Win 14 — Loss 7 Points

Upon completion of the 1st round and each following round the positions of the teams for the following round will be decided by the total number of points they have accumulated to that point for the season.

**Aggregate Winner** will be decided by the team having the greatest number of points at the end of the season.

**Group Winners** decided by the rink winning the most games in their divisions in the last round only.

**Club Championship** will involve a play-off between the Eight rinks at the completion of the Fifth and Last round. Those eligible are as follows:

1. The rink having the greatest point standing in the club following the **Third, Fourth and Fifth** rounds.
- . The rinks winning "A," "B," "C," "D" and "E" Groups on the completion of the Fifth round.

#### **NOTE:**

As a team is entitled to only one berth and in the event of a rink having already obtained a berth and qualifying again the berth will go to the closest rink in points at the end of the Third, Fourth and Fifth round and the rink with the second highest number of wins in the five groups at the completion of the Fifth round. In the event of ties, then this will necessitate play-offs.

Club Championship playoffs will be a single or double knockout depending on the amount of ice available.

A rink winning either or both the Aggregate or Club Championship will not be eligible for a group prize.

#### **INTER-CLUB PLAY**

- (a) To commence the season the Club Champion and Aggregate Winner from previous year will be the representative. If same team wins both then Aggregate runner-up becomes eligible.
- (b) The representatives will be the two top ranking teams in "A" Group who will be determined at the end of each round. They will continue to play until their first loss. This makes the next ranking team in "A" Group eligible to play.
- (c) Upon completion of the British Consols Playdown in the club the two qualifying rinks will be the representatives in Inter-Club play until the completion of the zone or Consol playdowns. Paragraph (c) overrules paragraph (b).

**British Consols: Members** should give this prompt attention as entries close November 10th and play will start shortly after this date. Play will be based on a double knockout — Play or default.

Entry fee, \$6.00 per team of four.

M.C.A. rules shall apply.

Decision of Ice Committee to be final.

Mixed playdowns and Senior events, more details as information becomes available.

Senior Event is open to curlers 55 and over.

Ice available Sunday evening, 8:15 to 10:15, 5 sheets.
